

ABHILASH CHINTHALA

DATA SCIENCE | ARTIFICIAL INTELLIGENCE | MACHINE LEARNING

chintalaabhilash5@gmail.com | 6305947567 | linkedin.com/in/abhilash-chinthala | github.com/AbhilashChintala | India

OBJECTIVE

Computer Science graduate specializing in Artificial Intelligence, with practical exposure to Python, SQL, data analysis, machine learning fundamentals, web development, and AI-focused content creation. Experienced through internships and technical training in front-end development, full-stack development, AI content creation, Python programming, and artificial intelligence. Interested in applying data-driven and AI skills to practical problems and pursuing advanced study in Data Science.

EDUCATION

Bachelor of Technology in Computer Science Engineering (Artificial Intelligence) Jan 2026

Parul University, Gujarat | Graduated: January 2026

Intermediate Mar 2021

Board of Intermediate Education, A.P., Vijayawada | English Medium | Maths, Physics & Chemistry

- Grand Total: 573 marks.

Senior Secondary School Mar 2019

SANSKRUTHI GLOBAL SCHOOL

- Total: 307/500 marks (61.4%).

INTERNSHIPS

Internship / Project Work — Full Stack Development 27 Dec 2024 – 19 Mar 2025

Rashtriya Ispat Nigam Limited (RINL), Visakhapatnam Steel Plant

- Completed a 12-week internship/project in the IT & ERP Department.
- Worked on Full Stack Development using J2EE and Web 2.0 technologies.

Artificial Intelligence · Training / Internship 01 Sep 2023 · 31 Oct 2023

Teachnook

- Completed Artificial Intelligence training/internship during the documented period.
- Certificate ID: TNINTC23-9314; certificate dated 10 Nov 2023.

PROJECTS

Steel Plant Wages Dashboard

Node.js, Express.js, MySQL, JavaScript, HTML/CSS

- Developed an interactive dashboard to manage and analyze workforce and attendance data for a steel plant.
- Designed and implemented a MySQL database for workers, jobs, and attendance information.
- Built RESTful APIs using Node.js and Express.js to fetch and process data.
- Implemented a dynamic frontend for job-code selection and worker insights.

Driver Drowsiness Detection System Academic Project · 6th·7th Semester

Python, OpenCV, Dlib, Machine Learning, Computer Vision

- Developed a real-time driver drowsiness detection system using facial features captured through a webcam.
- Used Dlib facial landmarks to analyze eye closure, blink rate, and mouth opening for drowsiness detection.
- Implemented Eye Aspect Ratio (EAR) and mouth-opening thresholds to classify the driver as active or drowsy.
- Designed an alert mechanism to warn the driver when signs of fatigue or drowsiness were detected.

CERTIFICATIONS

- AI Fundamentals — Google-authorized course via Coursera (07 Aug 2026)
- Python Programming — Certificate of Excellence (Bronze) — Innomatics Research Labs (08 Sep 2025)
- Creating Responsive Web Pages using Bootstrap 4 — Infosys Wingspan (08 Mar 2025)
- Full Stack Development: J2EE & Web 2.0 Technologies — RINL, Visakhapatnam Steel Plant (27 Dec 2024 – 19 Mar 2025)
- Artificial Intelligence — Teachnook (01 Sep 2023 – 31 Oct 2023)

TECHNICAL SKILLS

Programming Languages	Python, JavaScript, SQL, Java
Data Analysis & Visualization	Pandas, NumPy, Matplotlib, Seaborn
Machine Learning	Scikit-learn, Regression, Classification, Model Evaluation
Databases	MySQL
Web Technologies	HTML, CSS, JavaScript, Node.js, Express.js, Bootstrap, J2EE
Tools & Platforms	Git, GitHub, VS Code, Jupyter Notebook

ADDITIONAL SKILLS

Languages: English – Professional Working Proficiency | Telugu – Native | Hindi – Limited Working Proficiency

INTERESTS

Data Science & Machine Learning | Artificial Intelligence | Web Development | Reading Tech Articles | Cricket
